

Step 1: Rough Opening Flashing System Nail Flange Window

PanelFlashing SA Self-Adhered scraps adhere to cover pre-punched metal stud holes

Sheathing in "as new" condition

Note: Interior sealant joint required around entire perimeter of window for proper air barrier continuity and water holdout

VAPROLIQUI-FLASH[™]

Step 1: Inspect rough opening, patch pre-punched holes with PanelFlashing SA

PRODUCT DESCRIPTION

VaproLiqui-Flash is a liquid applied, vapor permeable, waterproof, air barrier flashing system component for window and door rough openings. VaproLiquiFlash is designed to work with VaproFlashing and VaproShield field membranes as a complete system.

DISCLAIMER

Detail sketch is generic, representing suggested best practices for VaproShield materials, and does not represent a specific job site condition and therefore may not be applicable to certain projects. Detail sketch is designed for use as a reference and must be approved by the designer/ consultant of record for each project prior to installation by the subcontractor. Changes and approvals of VaproShield details are the sole responsibility of the designer/consultant of record. VaproShield is **not** the designer of record for building enclosure details and takes no responsibility for the accuracy or interpretation of actual project site conditions.

Step 2: Rough Opening Flashing System Nail Flange Window

PanelFlashing SA Self-Adhered scraps adhere to cover pre-punched metal stud holes

Sheathing in "as new" condition

Note: Interior sealant joint required around entire perimeter of window for proper air barrier continuity and water holdout

PanelFlashing SA Self-Adhered properly shingled; applied directly to sheathing + folded 2.75" inside of R.O.

Note: Total of 11.75" of flashing should be used:

- 9" of flashing should be left on the face of the sheathing
- 6" of release film from the bottom of the flashing to be left attached for shingling over membrane.

VAPROLIQUI-FLASH[™]

Step 2: Install PanelFlashing SA into sill with 2.75" folded into R.O. 9" left on face, with bottom 6" of release film to remain attached.

PRODUCT DESCRIPTION

VaproLiqui-Flash is a liquid applied, vapor permeable, waterproof, air barrier flashing system component for window and door rough openings. VaproLiquiFlash is designed to work with VaproFlashing and VaproShield field membranes as a complete system.
